

# North Central London Fertility Policies Review

**Easy read booklet**

# Who are we and what do we do?

**North Central London**  
Clinical Commissioning Group

We are the **North Central London Clinical Commissioning Group** or **NCL CCG** for short.

We plan and pay for health care services in

- Barnet
- Camden
- Enfield
- Haringey
- Islington.

To do this we look at **scientific evidence**. We also talk to doctors and people who work in health care.

We talk to patients and people who live in the area to find out what health care they need.

# Our Fertility Policy

We are writing a plan called a **policy**. This will help people who have issues with their **fertility**.

This means that they want a baby, but are having trouble getting pregnant.

The help someone can get now depends on where they live in North Central London.

We want to make it fairer so everyone in North Central London can get the same help.

# What you think about fertility care

We want to know what people who live in North London think about **fertility care**.

You can tell us what you think by

- Filling out a questionnaire online [Fertility Policies Review](#) or on paper in this leaflet
- You can come to one of our online **public meetings**. To do this, sign up [click here](#).

**Saturday 12 June 11:00 - 12:30**  
**Thursday 24 June 17:00 - 18:30**

You can invite us to a meeting you are having about **fertility**. For example with a help group.

Send an email to

# Question 1 & 2 - Help you can get now and help you want to get

Write down what you think about the help you can get at the moment to get pregnant.

It might be helpful to tell us what happened to you when you tried to get help with this.

Write down what you think about how you would like the help to be different.

It might be helpful to tell us how you would have like what happened last time you got help to have gone differently.

## Question 3 & 4

# Tell us why you are answering this survey

Tick **one** of these boxes

I have used a **fertility service** before or am using one now
