

Primary care rebate schemes

Primary care rebate schemes (PCRS) are contractual arrangements offered by pharmaceutical companies, or third party companies, which offer retrospective financial rebates to the CCG on GP prescribing expenditure for particular branded medicine(s). The availability of a scheme **does not** influence the inclusion of specific medicines in care pathways or formularies. Healthcare professionals will continue to base their prescribing decisions on individual assessments of their patients' clinical circumstances. The decision to initiate treatment or change a patient's treatment regime should always be based on up-to-date best clinical evidence or guidance, for example, from the National Institute for Health and Clinical Excellence ('NICE'), or other approved authoritative sources.

North Central London CCG has signed up for the following primary care rebate schemes:
